

## Assessment:

### Dealing with Illness

The following questions have to do with what some people do to help them to deal with their illness. For example, some people react emotionally like crying and getting upset all the time, while others deal with their illness differently, like getting high or drunk often. Please tell me what you have done to help you deal with your illness.

Take a look at the card and tell me if you have never, sometimes, often, very often, or always done any of the following things to help you deal with your illness within the past three months.

- 1 – Never
- 2 – Sometimes
- 3 – Often
- 4 – Very Often
- 5 – Always
