A Regional Response to End the HIV Epidemic in California.

Presented at a meeting convened by:
Center for HIV Identification, Prevention, and Treatment Services.
Los Angeles, CA. January 24, 2020

CAPT Paul J Weidle, PharmD, MPH
Deputy for Program Operations, EHE
Division of HIV/AIDS Prevention, CDC

www.cdc.gov/EndHIV
Purpose: PS19-1906 - Component B: Accelerating State and Local HIV Planning to End the HIV Epidemic

- To support planning for Phase 1 jurisdictions identified as part of the Ending the HIV Epidemic initiative
Pillars of EHE
Diagnose all people with HIV as early as possible.
**Treat** people with HIV rapidly and effectively to reach sustained viral suppression.
Prevent new HIV transmissions by using proven interventions including pre-exposure prophylaxis (PrEP) and syringe services programs (SSPs).
Respond early to potential HIV outbreaks to get needed prevention and treatment services to people who need them.
