

About the Ryan White HIV/AIDS Program

The Ryan White HIV/AIDS Program works with cities, states, and local community-based organizations to provide services to an estimated 536,000 people each year who do not have sufficient health care coverage or financial resources to cope with HIV disease. The majority of Ryan White HIV/AIDS Program funds support primary medical care and essential support services. A smaller but equally critical portion is used to fund technical assistance, clinical training, and the development of innovative models of care.

The Ryan White HIV/AIDS Program, first authorized in 1990, is funded at \$2.32 billion in fiscal year 2014. The Program is administered by the U.S. Department of Health and Human Services (HHS), Health Resources and Services Administration (HRSA), HIV/AIDS Bureau (HAB).
