Section 11. HIV

11.1 HIV Prompt

The next few questions are about HIV. Please remember that like all of your answers, this information will be kept strictly confidential.

11.2	HIV Positive
	Are you HIV Positive (confirmatory and / or if status changed since birth assessment)?
	Expects a single option response (required)
	\square Yes [1]
	□ No[2]
	Unsure [99]
	Declined to answer [91]
	Branches
	If response Equals 'Yes [1]' then skip to Receiving Treatment (11.4)
11.3	Tested Since Birth
	Have you tested for HIV since the birth of your baby?
	Expects a single option response (required)
	□ Yes [1]
	\square No[2]
	Declined to answer [91]
	Branches
	If response Equals 'Yes [1]' then skip to HIV- Mother Protection From Infection (HIV- mothers only) (11.26)
	If response Not Equal 'Yes [1]' then skip to HIV- Mother Protection From Infection (HIV- mothers only) (11.26)
11.4	Receiving Treatment
	Are you receiving treatment for HIV?
	Expects a single option response (required)
	☐ Yes [1]
	□ No[2]
	Branches
	If response Equals 'No [2]' then skip to Ever had CD4 Count (11.6)
11.5	Treatment Being Received
	What treatment are you receiving? [INTERVIEWER DO NOT READ THE LIST OUT. LISTEN TO WHAT THE MOTHER TELLS YOU AND THEN
	SELECT THE APPROPRIATE RESPONSES]
	Expects multiple selected options (required)
	Antiretroviral[1]
	Cotrimoxazole [2]
	Other antibiotics [3]
	Utamins [4]
	☐ Immune boosters [5]
	Traditional medicine[6]
	Don't know [99]
	☐ Other [95]
	No response [98]

	Ever had CD4 Count
	Have you ever had a CD4 count?
	Expects a single option response (required)
	☐ Yes [1]
	□ No [2]
	Branches
	If response Equals 'No [2]' then skip to Actions to Protect Child BEFORE Birth (11.10)
44.7	Last CD4 Count Date
11.7	
	When was the last time you had a CD4 count? Expects a date response (required)
	expects a date response (required)
11.8	Know CD4 count
	Do you know the result of your CD4 count?
	Expects a single option response (required)
	□ No [2]
	Branches If response Equals 'No [2]' then skip to Actions to Protect Child BEFORE Birth (11.10)
	In response Equals No [2] then skip to Actions to Protect Child BEPORE Birth (11.10)
11.9	CD4 Count
	What was your CD4 count at the time of this test?
	Expects a numeric response (required)
11.10	Actions to Protect Child BEFORE Birth
	What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected BEFORE BIRTH?
	[INTERVIEWER DO NOT READ THE LIST OUT. LISTEN TO WHAT THE MOTHER TELLS YOU AND THEN SELECT THE APPROPRIATE
	RESPONSES]
	Expects multiple selected options (required)
	Expects multiple selected options (required) Nothing [1]
	Expects multiple selected options (required) \[\sum \text{Nothing [1]} \] \[\sum \text{Take AZT from 34 weeks [2]} \]
	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3]
	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4]
	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99]
	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4]
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99]
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99] Other [95] Actions to Protect Child AFTER Birth What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected AFTER BIRTH? [INTERVIEWER
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99] Other [95] Actions to Protect Child AFTER Birth
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99] Other [95] Actions to Protect Child AFTER Birth What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected AFTER BIRTH? [INTERVIEWER DO NOT READ THE LIST OUT. LISTEN TO WHAT THE MOTHER TELLS YOU AND THEN SELECT THE APPROPRIATE RESPONSES]
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99] Other [95] Actions to Protect Child AFTER Birth What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected AFTER BIRTH? [INTERVIEWER DO NOT READ THE LIST OUT. LISTEN TO WHAT THE MOTHER TELLS YOU AND THEN SELECT THE APPROPRIATE RESPONSES] Expects multiple selected options (required) Nothing [1]
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99] Other [95] Actions to Protect Child AFTER Birth What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected AFTER BIRTH? [INTERVIEWER DO NOT READ THE LIST OUT. LISTEN TO WHAT THE MOTHER TELLS YOU AND THEN SELECT THE APPROPRIATE RESPONSES] Expects multiple selected options (required)
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99] Other [95] Actions to Protect Child AFTER Birth What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected AFTER BIRTH? [INTERVIEWER DO NOT READ THE LIST OUT. LISTEN TO WHAT THE MOTHER TELLS YOU AND THEN SELECT THE APPROPRIATE RESPONSES] Expects multiple selected options (required) Nothing [1] Make sure the child gets one dose of NVP within 72 hours after delivery [2]
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99] Other [95] Actions to Protect Child AFTER Birth What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected AFTER BIRTH? [INTERVIEWER DO NOT READ THE LIST OUT. LISTEN TO WHAT THE MOTHER TELLS YOU AND THEN SELECT THE APPROPRIATE RESPONSES] Expects multiple selected options (required) Nothing [1] Make sure the child gets one dose of NVP within 72 hours after delivery [2] Make sure the child gets AZT for 7 days after delivery [4]
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take Neviraprin at delivery [3] Take AZT 3 hourly during delivery [4] Do not know [99] Other [95] Actions to Protect Child AFTER Birth What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected AFTER BIRTH? [INTERVIEWER DO NOT READ THE LIST OUT. LISTEN TO WHAT THE MOTHER TELLS YOU AND THEN SELECT THE APPROPRIATE RESPONSES] Expects multiple selected options (required) Nothing [1] Make sure the child gets one dose of NVP within 72 hours after delivery [2] Make sure the child gets AZT for 7 days after delivery [3] Make sure child gets AZT for 28 days after delivery [4] Use one feeding method only [5]
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take AZT from 34 weeks [2] Take AZT 3 hourly during delivery [4] Do not know [99] Other [95] Actions to Protect Child AFTER Birth What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected AFTER BIRTH? [INTERVIEWER DO NOT READ THE LIST OUT. LISTEN TO WHAT THE MOTHER TELLS YOU AND THEN SELECT THE APPROPRIATE RESPONSES] Expects multiple selected options (required) Nothing [1] Make sure the child gets one dose of NVP within 72 hours after delivery [2] Make sure the child gets AZT for 7 days after delivery [4] Use one feeding method only [5] Breast feed exclusively [6]
11.11	Expects multiple selected options (required) Nothing [1] Take AZT from 34 weeks [2] Take AZT from 34 weeks [2] Do not know [99] Other [95] Actions to Protect Child AFTER Birth What can an HIV positive mother who is not on full ARV treatment do to protect her child from becoming infected AFTER BIRTH?
