

Which of these ads is better for HIV prevention?

A SAFE SEX MESSAGE FROM
1800 185 141 | aphc.org.au

To answer this question, we need your help.

Join us for a discussion group about how to talk to men like you about HIV prevention. We will be looking at ads (including messages and images) to learn which ones you like the best.

The group is open to HIV- men who have sex with men, ages 18-30.
Food will be provided. Bring your friends!

Thursday, Feb 23 6-8 p.m. APLA Wellness Center, 3743 S La Brea Ave

For more information, please contact Kat Rogers at 310-557-1891
