By the end of this training participants will be able to:

1. Describe the impact of mental health and substance use disorders on clients living with HIV/AIDS
2. Discuss the importance of integrating behavioral health services with medical care
3. Identify at least 2 strategies for integrating behavioral health services with medical care for HIV clients
4. Discuss how integration strategies can be used to better meet other service needs of HIV clients
5. Explain how changes in policy and funding will encourage the integration of services for clients with HIV
