

# HIV GRAND ROUNDS

## "Challenges of researching Latina/o/s and community-based participatory research approach as a response to those challenges."

*Dr. Zea will discuss the challenges of conducting research with Latina/o/s in the US. She will reflect on her own transnational research trajectory and she will share findings from her project on individual, social, and structural influences on HIV serostatus among men who have sex with men. She will present findings from the community-based participatory research approach used to examine the feasibility and acceptability of a webnovela to promote HIV testing among men who have sex with men in Bogota.*
