

List of CHIPTS Expertise

Revised 09/26/18

First	Last	Degree	Core	Title	Primary Department	Areas of Expertise
Jennifer	Baughman	MPA	Administrative	Administrator	Family Medicine	Nonprofit management, budgeting, and grant management
Isabelle	Chu	BA	Administrative	Core Coordinator	Family Medicine	Social media, website, event planning, talent management
Tom	Coates	PhD	Administrative	Professor	Medicine	Global health, HIV prevention, international health policy
Marcos	Garcilazo-Figueroa	BS	Administrative	Core Assistant	Family Medicine	Harm reduction efforts, social services, health policies, Latinx STI/HIV prevention
Uyen	Kao	MPH	Administrative	Executive Director	Family Medicine	HIV/AIDS, substance abuse, community engagement/planning, intervention development, program evaluation, organizational management
Raphael	Landovitz	MD, MSC	Administrative	Associate Professor	Medicine	HIV prevention, including PEP, PrEP, and other combination prevention strategies; HIV/STD diagnosis and treatment
Steve	Shoptaw	PhD	Administrative	Professor	Family Medicine; Psychiatry & Behavioral Sciences	HIV, behavioral and addiction medicine, substance use, clinical psychology
Marisa	Briones	PhD	CP	Clinical Research Director	Family Medicine	Molecular and medical pharmacology, substance use, HIV, clinical trials
Ron	Brooks	PhD	CP	Assistant Professor	Family Medicine	PrEP stigma, Latino and African-American MSM, social media, urban planning, HIV Prevention
Wei-Ti	Chen	RN, CNM, PhD, F/CP		Associate Professor	Nursing	Intervention design, qualitative and quantitative data collection, audio computer-assisted self interview software (ACASI) assessment, self- and family-management, HIV-infected Asian Americans, HIV Care in China, Global health
Kara	Chew	MD	CP	Assistant Clinical Professor	Medicine	Infectious disease, Internal medicine, HIV, HCV, HIV/HCV co-infection, cardiovascular and metabolic disease
Jesse	Clark	MD	CP	Associate Professor	Medicine	HIV and STI prevention in Latin American and Latino MSM; Social and sexual network patterns of HIV/STI transmission and prevention among MSM/TW
Billy	Cunningham	MD, MPH	CP	Professor	Medicine	Health disparities, health services research, HIV, incarceration populations
Pamina	Gorbach	DrPH, MHS	CP	Professor	Epidemiology	Bio-behavioral dynamics of sexual health, HIV transmission, acquisition, & progression, substance abuse
Timothy (Cage)	Hall	MD, PhD	CP	Assistant Clinical Professor	Family Medicine	Sexual Identity formation, social/sexual MSM networks, non-gay-identified MSM, ethnography, MSM substance use, Central Europe/Czech Republic
Eric	Houston	PhD	CP	Assistant Professor at Charles R. Drew University	Psychiatry	Psychological factors associated with HIV treatment and prevention; technology-based intervention approaches; health disparities.
Oluwadamilola	Jolayemi	MS	CP	Program Coordinator	Family Medicine	Global health, health education, health worker training, health education material development, HIV prevention education, project support.
Norweeta	Milburn	PhD	CP	Professor	Psychiatry & Biobehavioral Sciences	Homelessness, substance abuse, mental health and family-based behavioral interventions
Jeanne	Miranda	PhD	CP	Professor	Psychiatry & Biobehavioral Sciences	Mental health care to low-income and minority communities, adopting older children into foster care, depression interventions
Debra	Murphy	PhD	CP	Professor Emeritus		HIV/AIDS behavioral research on children and adolescents affected by maternal HIV/AIDS, health (physical and mental) of HIV-infected adolescents and high-risk adolescents
Emeka	Okafor	PhD	CP	Post-Doctoral Scholar	Family medicine	HIV, Bio-behavioral epidemiology, substance use and mental health
Cathy	Reback	PhD	CP	Senior Research Scientist at FRI		Substance use, HIV, MSM, transgender, technology-based interventions, health disparities
Erik	Storholm	PhD	CP	Associate Behavioral Scientist at RAND		Health care access, health disparities, HIV/AIDS, mental health/illness, minority populations, sexual behavior, substance abuse
Laura	Bogart	PhD	CP/Policy	Senior Behavioral Scientist at RAND		Social psychology, community-based participatory research, health disparities, stigma, medical mistrust
Allison	Ober	PhD	CP/Policy	Health Policy Researcher at RAND		Evidence-based health practice, HIV/AIDS, social determinants of health, substance use harm reduction
Roger	Detels	MD, MS	Dvlpment	Professor	Epidemiology	Epidemiology, immunology, genetics, public health
Dallas	Swendeman	PhD, MPH	Dvlpment	Associate Professor	Psychiatry & Biobehavioral Sciences	HIV/AIDS prevention and self-management; evidence-based behavioral intervention adaptation, design, and diffusion; alternative intervention delivery modalities; mobile phone applications, sensors, text-messaging, and social media for research and intervention;
Tom	Belin	PhD	Methods	Professor	Biostatistics	Biostatistics, causal inference, incomplete data, mental-health services research, mix-modeling methods

Ron	Brookmeyer	PhD	Methods	Professor	Biostatistics	Aging, biostatistics, epidemiology, HIV, incomplete-data problems, modeling, population sampling, quantitative methods
Scott	Comulada	DrPH	Methods	Associate Professor	Psychiatry & Biobehavioral Sciences	mHealth, statistics with an emphasis on longitudinal analysis, behavioral intervention trial design
Sung-Jae	Lee	PhD	Methods	Associate Professor	Psychiatry & Biobehavioral Sciences	Epidemiology, health disparities, HIV, mental health, quantitative and qualitative methods, community and global health, mainly in SE Asia
Li	Li	PhD	Methods	Professor	Psychiatry & Biobehavioral Sciences	Epidemiology, health services research, HIV, medical sociology, substance abuse, community and global health, mainly in SE Asia
Chunqing	Lin	PhD	Methods	Assistant Professor	Psychiatry & Biobehavioral Sciences	Health service providers, people who use drugs, and HIV/AIDS affected individuals and families, intervention in China and Vietnam
Robert	Weiss	PhD	Methods	Professor	Biostatistics	Longitudinal data analysis, Regression modeling, Bayesian methods, hierarchical models, regression, power and sample size calculations, analysis of self-reported drug and sexual behaviors
Sean	Young	PhD	Methods	Associate Professor	Family Medicine	Social "big data", data mining, social media, technology-based intervention, HIV, substance use
Kathryn	Derose	PhD, MPH	Policy Impact	Senior Policy Researcher at RAND	Senior	Faith-based organizations, community-based participatory research, health care access, health care quality, health disparities, Latin America and the Caribbean, Latino populations
Chandra	Ford	PhD	Policy Impact	Associate Professor	Community Health Science	HIV/AIDS, aging, health/social epidemiology, LGBT health disparities
Nina	Harawa	PhD, MPH	Policy Impact	Associate Professor	Medicine	HIV/STI epidemiology, prevention, testing, and treatment; health disparities, incarceration; health policies; and African American communities
Ian	Holloway	PhD, MSW, MPH	Policy Impact	Associate Professor	Social Welfare	HIV prevention and care, sexual and gender minority health disparities, social network analysis, intervention development, policy research
Aleen	Leibowitz	PhD	Policy Impact	Professor Emeritus	Public Policy	Health economics, cost-effectiveness analysis, health policy, HIV/AIDS, Medicaid/medicaid
Sebastian	Linnemayr	PhD	Policy Impact	Senior Economist at RAND		HIV health behavioral, ART adherence, HIV Prevention, and behavioral economics
Erika	Martin	PhD, MPH	Policy Impact	Associate Professor	Public Administration and Policy	Health policy, HIV/AIDS, policy analysis, public health services and systems research, resource allocation
Corrina	Moucheraud	ScD, MPH	Policy Impact	Assistant Professor	Health Policy and Management	Global health, HIV treatment/models of care, comorbidities of HIV, health policy, health service research
Ayako	Ochoa	JD	Policy Impact	Adjunct Professor	Social Welfare	HIV criminalization, HIV/AIDS law and policy, health disparities, intersectionality
Mark	Peterson	PhD	Policy Impact	Professor	Public Policy	American government and politics, political leadership, public policy making, research evidence in policy making, health care policy, national health care reform, HIV/AIDS policy, Medicare
Manisha	Shah	PhD	Policy Impact	Associate Professor	Public Policy	Economics, global health, international development, materna/child health, risk behaviors
Latoya	Small	PhD, LMSW	Policy Impact	Assistant Professor	Social Welfare	Health disparities, intersectionality, mental health, women and children, Sub-Saharan Africa, community-based participatory research
Lois	Takahashi	PhD	Policy Impact	Professor Emeritus	Urban Planning	Social service delivery, evidence-based practice implementation, HIV/AIDS, homelessness, neighborhood effects
Diane	Tan	PhDc	Policy Impact	Doctoral Candidate	Health Policy and Management	Racial/ethnic disparities in health, health insurance coverage; health services research
Dilara	Uskup	PhDc	Policy Impact	Doctoral Candidate	Political Science	Race, religion, gender, and sexuality at the intersection of public opinion and policy
