

UCLA Center for Behavioral and Addiction Medicine  
invites you to attend

## Targeted Pharmacotherapy to Reduce Substance Use and HIV Risk: Lessons Learned from the Project **iN** Study

**Tuesday, September 23, 2014**

**3pm to 4pm**

**UCLA Campus**

**Bel-Air Room, 17-323 CHS**

**Glenn-Milo Santos, PhD, MPH** is a Research Scientist at the San Francisco Department of Public Health (SFPDH) and an Assistant Professor in the Department of Community Health Systems at University of California, San Francisco. His research foci involve the development of pharmacologic and behavioral interventions to reduce substance use and HIV-related sexual risk behaviors among key populations at risk for HIV, including men who have sex with men, transgender individuals, and people who use drugs.
