

Composite International Diagnostic Interview (CIDI)

Version 2.1 – Lifetime Assessment

Version 2.1 of the CIDI-Core is the third authorized version of the Composite International Diagnostic Interview (CIDI). It has been developed in consultation with numerous experts and tested in many countries. A brief history of its development can be found in the CIDI Training Manual. The proper use of this instrument requires appropriate training of interviewers, careful editing of interview schedules, so as to be certain that data are complete, accurately coded, and logically consistent across questions, and computer scoring. The interview should be used only in conjunction with its supporting materials. These include a CIDI Training Manual, a CIDI Interviewer's Manual, and a CIDI computer diskette for data entry, cleaning, and scoring, along with its Computer Manual.

No translation of this instrument into any language should be prepared or released without the express permission of the World Health Organization, Geneva.

All correspondence (including enquiries about training, translation, and use of the instrument) should be addressed to:
