Responding to Outbreaks of Human Immunodeficiency Virus Among Persons Who Inject Drugs—United States, 2016–2019: Perspectives on Recent Experience and Lessons Learned

Sheryl B. Lyss,^{1,2} Kate Buchacz,¹ R. Paul McClung,^{1,2} Alice Asher,³ and Alexandra M. Oster^{1,2}

¹Division of HIV/AIDS Prevention, National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention, Centers for Disease Control and Prevention, Atlanta, Georgia, USA, ²US Public Health Service, Atlanta, Georgia, USA, and ³National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention, Centers for Disease Control and Prevention, Atlanta, Georgia, USA

Day 1 Recap and Meeting Objectives

1

Discuss the current state of substance use and how it contributes to the HIV epidemic and related syndemics in CA

2

Identify multiple strategies to address substance use in CA

3

Discuss action steps for policy, advocacy, programmatic, and research stakeholders to move these strategies forward over the next 12 months

Meeting Agenda

Opioid Use

Meth/Simulant Use

Overdose Prevention

Harm Reduction

9:05 – 10:00 am

Strategies in Action Panel
Live Q&A

10:05 – 10:55 am

Breakout Sessions: Action Planning

10:55 – 11:00 am

Closing and Next Steps

Key Resources and Opportunities to Engage

Technical Assistance:

- Pacific AIDS Education and Training Center (PAETC)
- Pacific Southwest Addiction Technology Transfer Center (PS-ATTC)
- Technical Assistance Provider-Innovation Network (TAP-in)
- Two NIDA-funded projects: SAT2HIV-II and STS4HIV

Opportunities to Engage:

- *Advancing efforts to address HIV, HCV, and STDs in the era of COVID-19 and beyond – Wednesday, November 18, 2020 from 1 PM - 3 PM*

CALIFORNIA HIV / AIDS POLICY RESEARCH CENTERS

CALIFORNIA HIV/AIDS POLICY RESEARCH CENTERS

Two Collaborative HIV/AIDS Policy Research Centers, funded by the California HIV/AIDS Research Program, that support research and policy analysis that addresses critical issues related to HIV/AIDS care and prevention in California.

WHAT WE DO

Our centers are comprised of multi-disciplinary teams of investigators working in partnership with consumers, advocates, and policymakers to conduct policy-relevant research that strengthen local, state, and national HIV responses. This research produces new knowledge that can be applied to improve prevention and care services for affected persons and populations.
