

# HIV GRAND ROUNDS

## *"HIV Epidemiology and Prevention with Transgender Men and Transmasculine People"*

Dr. Sari L. Reisner is the Director of Transgender Research at Brigham and Women's Hospital and The Fenway Institute at Fenway Health, Assistant Professor in the Department of Medicine at Harvard Medical School, and Assistant Professor in the Department of Epidemiology at Harvard T.H. Chan School of Public Health. Trained as a social and psychiatric epidemiologist, his research focuses on health inequities in sexual and gender minority populations, with specialization in transgender and gender diverse health, HIV prevention, and mental health. Dr. Reisner is PI of multiple NIH- and PCORI-funded transgender health studies, has contributed to more than 250 peer-reviewed publications, is on the Board of the World Professional Association for Transgender Health (WPATH), and was profiled in The Lancet as a global transgender leader. He utilizes a "participatory population perspective" to work "with" not "on" transgender and gender diverse communities.

This presentation will describe HIV prevalence, vulnerabilities, and prevention strategies to address the epidemic in transgender men and transmasculine people.

### Event Information

- Virtual Lecture
- Once you register, you will be e-mailed a Zoom Link
