

This is what vaccine equity looks like

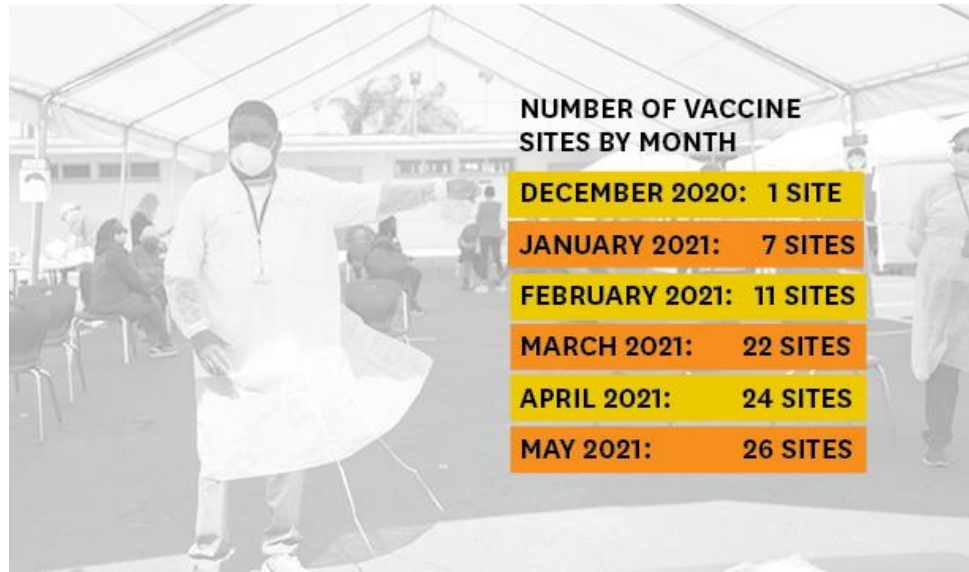

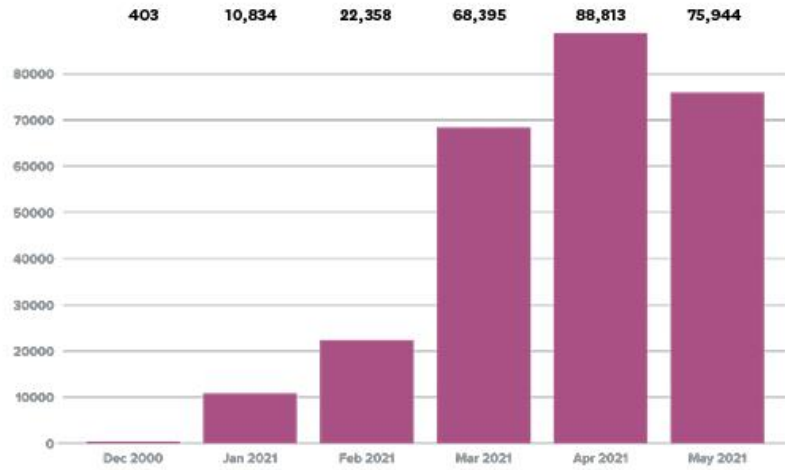

St. John's Well Child & Family Center's commitment to ending the COVID pandemic in South (and East, and Central) Los Angeles

COVID-19: St. John's on the frontlines

- Mobilized in March 2020 to begin testing
- Inequitable distribution of test kits
- Tested over 100,000 people in South LA
 - 35% positivity rate
- Provided triage services to prevent and monitor disease progression
- First FQHC (federally-qualified-health-center) in the county to provide monoclonal antibody infusion therapy
- Created COVID monitoring/follow-up clinic to reduce long-term COVID impacts for tens of thousands of patients
- Massive vaccination effort beginning 1/21
- Engaged inequitable distribution of vaccines
- Vaccinated over 250,000 low-income individuals
