ORANGE COUNTY DATA (2018) – RYAN WHITE CLINIC

Figure 1: The Continuum of HIV Care: 17th Street Care, 2018

ENDING THE HIV EPIDEMIC PROPOSED PLAN

■ Existing Plans

- Orange County Integrated HIV Prevention and Care Plan
- CDPH Laying a Foundation for Getting to Zero
- National HIV/AIDS Strategy

■ EtHE Plan Goals

- Reduce new HIV Infections
- Increase access to care and improve health outcomes
- Reduce HIV-related disparities

ENDING THE HIV EPIDEMIC PROPOSED PLAN

- **Accelerated Efforts**
 - Reduce new HIV Infections by 75% by 2024
 - Increase Community Engagement with Non-Traditional Partners
 - Improve Resources and Messaging for Disproportionally Affected Individuals
 - Black/African American MSM
 - Latinx MSM
 - Youth

ENDING THE HIV EPIDEMIC PROPOSED PLAN

- **Coordinated Approach to EtHE Strategies**
- **EtHE: Ryan White HIV/AIDS Program Parts A and B**
 - Seven Proposed Activities
 - Provider liaison to implement HIV standards of care
 - Implement Rapid ART in Orange County clinics and jails.
 - Provide HIV medical care to high acuity individuals who do not qualify for the Ryan White Program
 - Peer Navigator Program
 - Expand housing availability through collaboration with City of Anaheim (Housing and Urban Development Program)
 - Develop and implement a Strategic Plan to address HIV/STD/HCV epidemics
 - Implement mobile unit testing, care, and referral services

ENDING THE HIV EPIDEMIC PROPOSED PLAN

- **CDC I9-1906**
 - Viral Load Suppression Patient Incentive Program
 - Utilize surveillance data
 - Focus on Non-Ryan White Clinic Settings
 - Incentivizes PLWH to engage in HIV care, reach and maintain viral suppression
 - Linkage to Care Case Management Model
 - Assess client's baseline HIV knowledge
 - Referrals to supportive services
 - Treatment Adherence Counseling

OPPORTUNITIES FOR REGIONAL COORDINATION

■ **Current Systems**

- HIV Planning Council
- Ending the Epidemics Statewide Working Group
- HIV/STD Service Integration
- STI Coalition
- Health Improvement Plan - 2020 Plan has Sexual Health Focus

■ **New Approaches**

- Identifying ways to engage PLWH to help write the plans

NEEDED REGIONAL STRUCTURE AND RESOURCES

- NEW COMMUNITY INPUT AND COLLABORATION
- ADDITIONAL STAFF
 - Technical Assistance
 - Staff Training
 - Data Sharing with Health Providers
 - Additional HIV Medical Providers
 - Healthcare Provider Education

INTER-JURISDICTIONAL COLLABORATION

- Plan Sharing
- Annual Meetings
- Disease Integration and Investigation
- Identify strategies for a State Approach
