HIV Health Disparities: Targeting Syndemics to End AIDS

January 19, 2018

UCLA Covell Commons | Grand Horizons Room

Welcome Statement

Dear Friends and Colleagues,

The UCLA Center for HIV Identification, Prevention, and Treatment Services (CHIPTS) is proud to present the 2018 HIV Next Generation Conference. We are thrilled that you are here!

The theme of today's conference is "HIV Health Disparities: Targeting Syndemics to End AIDS." The conference was designed to provide an opportunity for emerging HIV investigators and community partners to highlight their research, network with other colleagues, and share their visions for future priorities. We hope that the day is valuable and that the information you learn and the people you meet leave you invigorated and renewed in our shared mission to end the HIV epidemic in Los Angeles and around the world.

Also, we would like to acknowledge the National Institute of Mental Health (grant #MH058107) who provided funding for this conference. In addition, we would like to give special thanks to our conference collaborators, the Los Angeles Region Pacific AIDS Education and Training Center and the California HIV/AIDS Research Program Health Disparities Core, for their support in planning this event.

We hope you enjoy the conference and we look forward to meeting you!

Yours truly,
The Conference Planning Committee

This event is made possible by funds from the
National Institute of Mental Health (MH058107).

9:00 AM – Registration & Breakfast

9:45 AM – Opening Remarks

Steve Shoptaw, PhD
