WHO ARE WE?

- We are a non-profit, volunteer-led effort that helps people learn accurate, up-to-date information about how to get the COVID-19 vaccine in the US. We value ground truth and verify our sources.
- We are building the most comprehensive list of vaccination sites in the US. in partnership with Vaccines.gov and other orgs.
- We are committed to ensuring that those with historical disadvantages have equitable access to all the information we report.
- We partner with existing, trusted orgs (like Google Maps) instead of trying to build our platform from scratch.

HOW DO WE WORK?

- Our team calls medical professionals at hundreds of potential vaccination sites daily to ask them if they are offering vaccinations and how to get an appointment.
- We also gather vaccine site information from official sources, including VaccineFinder.org, state government agencies, county health departments, and healthcare providers.
- We compile what they say into a comprehensive map, and make it freely available on this site, to other publishers, and to public health initiatives.
- Our map is updated often! (At least every 24hrs)

VaccinateTheStates.com

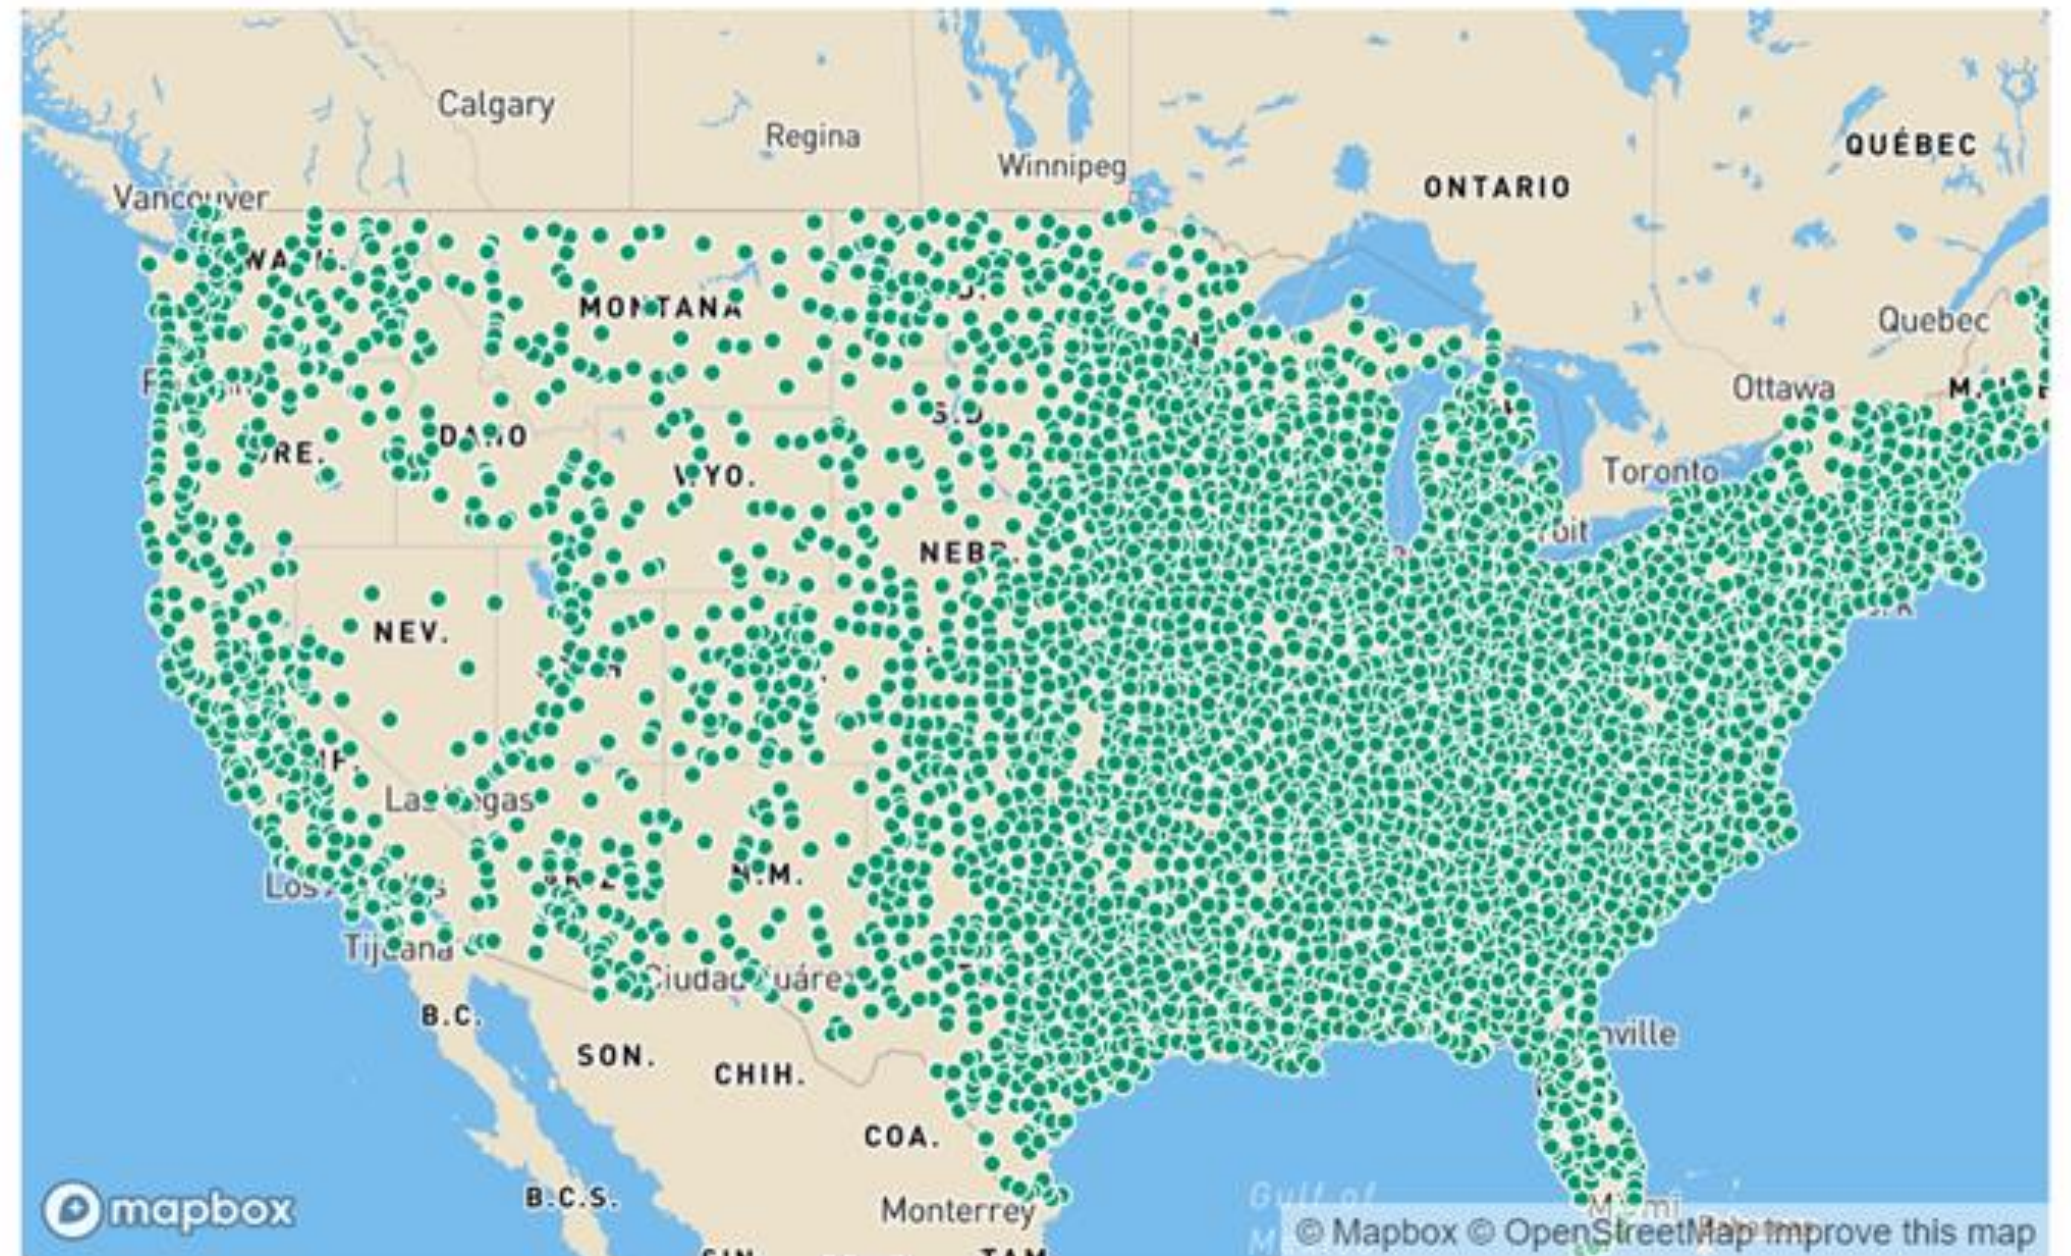

Find a COVID-19 vaccine for yourself or a loved one

Everyone over 12 in the US is now eligible for a free, safe, and reliable COVID-19 vaccination.

Find vaccination sites near you, and learn how to make an appointment.

We're building the most comprehensive map of vaccination sites in America. Want to help? [Learn more →](#)

The Pfizer-BioNTech vaccine has been authorized for children as young as 12. [Show only sites with Pfizer-BioNTech doses reported available.](#)

WANT TO ADD OUR MAP TO YOUR WEBSITE?

- Please do!
- It's as easy as embedding a YouTube video onto a website
- Embed instructions here: tinyurl.com/VTS-map-embed
- Alameda County did it ->

HOW CAN WE HELP EACH OTHER?
