

## **Assessment:**

### **Sexual Risks Scale - Expectations to Resist Unsafe Sex (SRSE)**

#### **Scale items:**

1. If my partner wanted me to have unprotected sex, I would probably "give in". **R**
2. If my partner wanted me to participate in "risky" sex and I suggested a lower-risk alternative, we would have the "safer" sex instead.
3. If my partner wanted me to have unprotected sex and I made some excuse to use a condom, we would still end up having unprotected sex. **R**
4. If my partner wanted me to participate in "risky" sex and I said that we needed to be safer, we would still probably end up having "unsafe" sex. **R**
5. If a sexual partner didn't want to use condoms, we would have sex without using condoms. **R**

#### **USE THE FOLLOWING RESPONSE CATEGORIES FOR SCALES ABOVE.**

- a. **Strongly disagree**
- b. **Disagree**
- c. **Neutral**
- d. **Agree**
- e. **Strongly agree**

**Note: Items followed by an R should be reversed when coding.**
